

CONTENTS

Preface xv

PART I. CURRENCY AND MONEY	1
Introduction	3
1 The Value of Currency	7
1.1 <i>Introduction</i>	7
1.2 <i>Outline of the Results</i>	12
1.3 <i>Model</i>	13
1.3.1 Consumers	13
1.3.2 Government	17
1.3.3 Equilibrium	20
1.4 <i>Determining the Value of the Currency</i>	22
1.4.1 The Fiscal Theory of the Price Level	24
1.4.2 Central Bank Theory of the Price Level	28
1.5 <i>Holding Gold</i>	32
1.6 <i>References</i>	38
2 Cash as a Medium of Exchange	40
2.1 <i>Introduction</i>	40
2.2 <i>Outline of the Results</i>	44
2.3 <i>Model</i>	44
2.3.1 Consumers	44
2.3.2 Government	48

2.3.3	Equilibrium	48
2.3.4	Seigniorage	50
2.4	<i>Price Determination through the Interest Rate Policy</i>	52
2.5	<i>Price Determination through Money Aggregates</i>	55
2.6	<i>The Gold Standard</i>	58
2.7	<i>Optimal Policy</i>	61
2.8	<i>Cryptocurrency Competition</i>	62
2.8.1	Only Government Money Is Used	67
2.8.2	Both Types of Money Are Used	68
2.8.3	Only Private Money Is Used	70
2.8.4	Launching a Fully Backed Cryptocurrency	72
2.9	<i>References</i>	74
3	Central Bank Digital Currency	76
3.1	<i>Introduction</i>	76
3.2	<i>Outline of the Results</i>	79
3.3	<i>Model</i>	79
3.3.1	Consumers	79
3.3.2	Government	83
3.3.3	Equilibrium	84
3.4	<i>Price Determination</i>	85
3.5	<i>Optimal Liquidity Policy</i>	87
3.6	<i>References</i>	90
4	Private Money	92
4.1	<i>Introduction</i>	92
4.2	<i>Outline of the Results</i>	94
4.3	<i>Model</i>	95
4.3.1	Consumers	96
4.3.2	Government	98
4.3.3	Intermediaries	98
4.3.4	Equilibrium	99
4.4	<i>The Supply of Public and Private Liquidity</i>	101

4.5	<i>Dominant Currency</i>	104
4.6	<i>References</i>	110
PART II. STABILIZATION POLICIES		111
	Introduction	113
5	The Benchmark New Keynesian Model	118
5.1	<i>Introduction</i>	118
5.2	<i>Outline of the Results</i>	120
5.3	<i>Model</i>	120
5.3.1	Households	120
5.3.2	Firms	125
5.3.3	Government	126
5.4	<i>Equilibrium with Flexible Prices</i>	126
5.5	<i>Price Rigidities</i>	128
5.5.1	Equilibrium with Price Rigidities	131
5.5.2	Log-linear Approximation	132
5.6	<i>References</i>	135
6	An AS-AD Graphical Analysis	137
6.1	<i>Introduction</i>	137
6.2	<i>Outline of the Results</i>	140
6.3	<i>Productivity Shock</i>	140
6.3.1	A Temporary Productivity Shock	140
6.3.2	A Permanent Productivity Shock	142
6.3.3	Optimism or Pessimism on Future Productivity	143
6.4	<i>Markup Shock</i>	144
6.5	<i>Public Spending Shock</i>	146
6.6	<i>Preference Shock</i>	147
6.7	<i>Disanchoring of Price Expectations</i>	148
6.8	<i>References</i>	149

7	Inflation Targeting as an Optimal Policy	150
7.1	Introduction	150
7.2	Outline of the Results	152
7.3	Optimal Policy under Commitment	152
7.4	Optimal Policy under Discretion	163
7.5	Interest Rate Rules	164
7.6	Optimal Inflation Target	168
7.7	References	171
8	NK Model with a Banking Sector	174
8.1	Introduction	174
8.2	Outline of the Results	175
8.3	Model	176
8.3.1	Banking Model	176
8.3.2	Households	179
8.3.3	Firms	181
8.3.4	Government	182
8.4	Equilibrium	182
8.5	Log-linear Approximation	184
8.6	Optimal Policy	190
8.7	References	193
	PART III. CRISIS MODELS	197
	Introduction	199
9	Liquidity Trap	202
9.1	Introduction	202
9.2	Outline of the Results	206
9.3	Helicopter Money	207
9.3.1	Helicopter Money Coordinated by Monetary and Fiscal Policy	212
9.3.2	Helicopter Money by Central Bank Only	214

9.4	<i>Unconventional Monetary Policy</i>	215
9.4.1	<i>Irrelevance of Unconventional Open Market Operations</i>	218
9.4.2	<i>Relevance of Unconventional Open Market Operations</i>	223
9.5	<i>Forward Guidance</i>	225
9.6	<i>Managing the Central Bank's Reserves</i>	230
9.7	<i>Other Channels for Unconventional Monetary Policies</i>	236
9.8	<i>References</i>	239
10	<i>Deleveraging and Credit Crunch</i>	242
10.1	<i>Introduction</i>	242
10.2	<i>Outline of the Results</i>	244
10.3	<i>Debt Deleveraging</i>	245
10.4	<i>The Credit Crunch</i>	253
10.5	<i>A General Framework</i>	256
10.6	<i>References</i>	263
11	<i>Shortage of "Safe Assets"</i>	266
11.1	<i>Introduction</i>	266
11.2	<i>Outline of the Results</i>	269
11.3	<i>Model</i>	269
11.3.1	<i>Consumers</i>	270
11.3.2	<i>Financial Intermediaries</i>	272
11.3.3	<i>Government</i>	274
11.4	<i>Equilibrium with the Government Satiating Liquidity</i>	275
11.5	<i>Equilibrium with No Frictions in the Supply of Private Safe Assets</i>	276
11.6	<i>Equilibrium with Frictions in the Supply of Private Safe Assets</i>	278
11.7	<i>Government Intervention</i>	281
11.7.1	<i>Government Policy with a Limit on Taxes</i>	282

11.7.2 Regulation of Intermediaries' Investments	286
11.7.3 General Discussion	287
11.8 References	289
PART IV. INFLATION	291
Introduction	293
12 The Inflation-Unemployment Trade-Off	299
12.1 Introduction	299
12.2 Outline of the Results	302
12.3 Natural Rate of Unemployment	303
12.4 Keynesian Unemployment	308
12.5 Short-Run Non-neutralities	311
12.6 Persistent Monetary Non-neutralities	316
12.7 An L-Shaped New Keynesian Phillips Curve	320
12.8 References	326
13 Hyperinflation	329
13.1 Introduction	329
13.2 Outline of Results	333
13.3 Deficit Financing and Inflation	333
13.3.1 Money-Financed Real Fiscal Deficit	335
13.3.2 Money-Financed Nominal Fiscal Deficit	338
13.3.3 . . . with Interest Rate Policies	340
13.4 Some Unpleasant Monetarist Arithmetic	342
13.4.1 Tight Money Paradox	345
13.5 Central Bank's Balance Sheet and Inflation	348
13.6 References	351
PART V. CONCLUSION	353
The Future of Monetary Policy	355

PART VI. APPENDIX	363
Appendix to Chapter 1	365
<i>A Derivation of Equation (1.5)</i>	365
Appendix to Chapter 2	367
<i>B Derivation of Equation (2.4)</i>	367
Appendix to Chapter 3	368
<i>C Derivation of Equation (3.4)</i>	368
Appendix to Chapter 5	369
<i>D Derivation of Equations (5.3) and (5.4)</i>	369
<i>E Derivation of the Log-linear Approximations of Section 5.5.2 of Chapter 5</i>	370
Appendix to Chapter 7	373
<i>F Derivations of the Loss Function (7.1)</i>	373
<i>G Conditions for Determinacy</i>	378
Appendix to Chapter 8	379
<i>H Derivations of Approximations (8.22) and (8.23)</i>	379
<i>I Derivations of the Loss Function (8.27)</i>	380
 <i>Bibliography</i>	 383
<i>Index</i>	399
